We also offer our members the chance to earn affiliate commissions from the platform. We pay our affiliates for direct and indirect referrals. Direct referrals are members who registered with your referral link. Indirect referrals are members who register via the referral link of your invitee.

Referrals

Earn an 8% instant referral bonus of the amount deposited (level 1) and if the customer you refer brings another customer up to 4 people you earn 6% referral bonus the customer your direct referral brings with them (level 2) and it stops at level 10 which is 1%. And the more these people reinvest, the more you earn referral commission depending on the level of referral the client falls.

Direct Referrals – These are people who directly used your referral link to sign up and purchase an investment plan.

Indirect Referrals: These are people who signed up using the link of the person who used your referral link to sign up and purchase a plan.

Level 1: You earn 8% of your direct recommendation

Level 2 : Opens with 4 people: (indirect referral 6%)

Level 3: Opens with 3 people: (indirect referral 2%)

Level 4 : Opens with 2 people: (indirect referral 3%)

Level 5 :Opens with 3 people: (indirect referral 4%)

Level 6: (indirect referral 1%)

Level 7: (indirect referral 1%)

Level 8: (indirect referral 0.5%)

Level 9: (indirect referral 0.5%)

Level 10: (indirect referral 1%)

Profit Over Commission

The profit over commission is only available for Gold package users.

In the profit over the commission, you get a percentage over people who registered with your referral link. Just like the referral bonuses, this also has 10 levels.

Let's paint a scenario.

Say John brought in 5 people to register with his referral link and all these 5 people bought a package on the platform. From the total profit of these 5 people, John is entitled to get 5% of their total profit. This is the first level of profit over commission.

For the second level, John will have to register 10 people and he will be entitled to their total profits from week 1 to week 3 in this order. He will get 5% of their total profit in week 1, then get 2.5% of their total profit in a week to and 2.5% of their total profit in week 3.

This trickle down to level 3

You open up with 15 people and get 5%, 2.5%, 2.5%, 2.5% from the first week to the fourth-week profit from your direct referrals

Level 4: Open up with 20 people and get 5%, 5%, 2.5%, 2.5% from the first week to the fourth-week profit from your direct referrals

Level 5: Open up with 30 people and get 5%, 5%, 5%, 2.5% from the first week to the fourth-week profit from your direct referrals

Level 6: open up with 40 people and get 10%, 5%, 5%, and 2.5% from the first week to the fourth-week profit from your direct referrals

Level 7: open up with 60 people and get 10%, 10%, 5%, 5%, 2.5%, 2.5% from first week to the sixth-week profit from your direct referrals

Level 8: Open up with 80 people and get 10%, 10%, 10%, 5%, 5%, and 5% from the first week to the sixth-week profit from your direct referrals.

Level 9: Open up with 120 people and get 10%, 10%, 10%, 10%, 10%, 10% from the first week to the sixth-week profit from your direct referrals.

Till level 10: where you have to open up with 120 people and get 10% of their profit in week1, 10% of their profit in week2, 10% of their profit in week3, 10% of their profit in week 4, 10% of their profit in week 5, 10% of their profit in week 6. This sums up how the profit over commission works.
